We have recently made such changes in our Manufacturing Department as will concentrate them, so as to enable us to carry on the business with less expense, and shall consequently reduce the price of our Goods in the same ratio.

Our customers and the public generally will find that our motto of

"Large Sales & Small Profits,"

Will be strictly adhered to in the future, as in the past, and it will ever be our aim to supply them with the

BEST GOODS, AT THE LOWEST POSSIBLE PRICE.

Our acceptable, agreeable and fair way of dealing on the Loan system, is fully exemplified by its tremendous popularity and success during the past season. It is considered by all unbiassed minds as one of the greatest blessings and advantages to those of moderate means, and the plan is on the same principle as that in our Savings Banks, where they loan money on colateral security, and the benefit derived from it can be testified to by thousands of families who are thus placed in possession of comfortable and even richly-furnished dwellings, by our system of weekly and monthly payments.

BANKING HOUSE OF
FISK & HATCH,
NO. 5 NASSAU STREET,
New York, March 1st, 1872.

We are selling the

Chesapeake & Ohio Railroad
First Mortgage 6 per cent. Gold Bonds at the rate of 94 and accrued interest. They are in denominations of $1,000, $500 and $100, registered, or with coupons attached; **interest payable May and November in United States gold coin**; principal payable in 1899, also in gold coin. Bonds delivered by Express, charges paid.

These bonds, beside being the formal obligations of a well-established, substantial and thoroughly responsible corporation, comprising among its officers and directors some of the **most experienced and trusted capitalists** and business men of the country, are also secured by a **mortgage lien upon the whole great railroad line, equipment, property and franchises** whose cost and value will not be less than thirty millions, and which is destined, at an early day, to have a productive value of nearly double this sum.

The Chesapeake and Ohio Railroad connects the deep water navigation of the Chesapeake Bay with the head of reliable inland navigation on the Ohio River. It is 427 miles in length, of which **nearly three-fourths is already** in operation, and the remainder under such rapid construction that it will be completed during the ensuing Summer.

This line furnishes a short and remarkably easy route for travel and transportation between the Great West and the Atlantic coast, and as such will share, on advantageous terms, to a large extent, in the vast volume of through business from the West which now taxes all existing means of transit. By means of connecting lines, now under construction in Ohio and Kentucky, it will afford the **shortest and cheapest route** between Cincinnati, Louisville, St. Louis, Chicago, Nashville, Memphis, and the far West and the North Atlantic shipping, and it must at once take rank, therefore, as one of the **Great Trunk Roads** of the country for through transportation.

Besides these advantages it traverses the **richest and most extensive coal deposits** in the country, in its route through the Kanawha Valley, and crosses, in its course, some of the most important and **valuable deposits of iron ore** known on this Continent. The coal, of which there are three varieties, will furnish an enormous and profitable traffic; and there is no doubt that a large manufacturing activity will soon be developed along the line.

$1,000 bond costs (with the back int'st) today $959.62
$500 bond costs (with the back int'st) today $475.95
$100 bond costs (with the back int'st) today $95.99

We buy and sell GOVERNMENT AND CENTRAL PACIFIC BONDS, and receive them in exchange for CHESAPEAKE AND OHIO BONDS at their current prices.

Descriptive pamphlets, with full information, furnished on application.

We receive deposits and allow interest at the rate of four per cent. on balances; make collections in all parts of the country; issue certificates of deposit, and do a general banking business.

NEWPORT DAILY NEWS.

FRIDAY, March 8, 1872.

NATIONAL UNION REPUBLICAN STATE CONVENTION.

At a meeting of the State Central Committee of the National Union Republican party, of Rhode Island, held on the 24th day of February, 1872, the following resolutions were unanimously adopted:

Resolved, That a State Convention be held in the hall of the House of Representatives, at the State House in the city of Pro[illegible], on Thursday, the 14th day of March, 1872, at 11 o'clock, A. M., for the nomination of candidates for general officers, and for the election of delegates to a Convention to be held at Philadelphia on the 5th day of June, 1872, for the purpose of presenting candidates for the offices of President and Vice President of the United States.

Resolved, That the several towns and cities of the State be requested to send delegates to said Convention, equal to, and not exceeding, their representation in the General Assembly.

WILLIAM A. PIERCE, Chairman.
T. A. WHITMAN, Secretary.

CAUCUS!

The ELECTORS of the NATIONAL UNION REPUBLICAN PARTY, of this city, are requested to meet at the STATE HOUSE on MONDAY EVENING, 11th instant, at 8 o'clock, to elect six delegates to the STATE CONVENTION to be held on the 14th instant at Providence.

WILLIAM A. STEDMAN.
Member R. C. Comm. for Newport.

According to a dispatch to a New York paper, "it is the intention of Mr. Tom Hughes, member of the House of Commons, to shortly move an address to the Crown, praying that the government of Great Britain shall take steps to oblige Spain to fulfill her treaty obligations with regard to Cuba."

The famous Tichborne case has come to an unlooked-for ending, and the claimant is in Newgate for perjury. When the court opened Wednesday morning his counsel stated that their client would withdraw the case in view of the action of the jury in saying that sufficient evidence had been taken whereon to base a verdict. The defence then secured the arrest of the claimant, and in default of bail in £50,000 he is now in custody.

In the General Assembly yesterday the Senate voted to adhere to three of its amendments to the statute relative to the estate of deceased persons, in one case by the casting vote of the Governor. The House spent most of the session in the consideration of the revised statutes concerning corporations, and made several important amendments to the chapter relative to railroads, providing for a single Railroad Commissioner, instead of three, and changing somewhat the scope of his duties. The women suffrage petitioners are to have a hearing before the House Committee on Education next Tuesday afternoon.

President Grant has been clearly exonerated from any connection with the abuses in the New York Custom House, by the straightforward testimony of his two Military Secretaries, Generals Porter and Babcock. The evidence of General Babcock was, if possible, more conclusive than that of General Porter, nor was it in any way damaged by the severe cross-examinations by Messrs. Bayard and Casserly. Not only his connection with the New York Custom House, but with the proposed annexation of San Domingo, were thoroughly overhauled, and the gallant young officer came off with flying colors. He evidently had nothing to conceal and was ready to tell the whole truth with alacrity.

In the United States Senate, yesterday, bills were passed for the erection of public buildings in Albany, St. Louis, Hartford and Little Rock. The commerce committee was directed to thoroughly investigate the subject of immigration and the treatment of immigrants, and the quarantine and health regulations in New York, Philadelphia and Baltimore. The legislative appropriation bill was debated. In the House the Senate bill for the redemption of the temporary three per cent. loan certificates at the rate of $3,000,000 a month was reported back adversely and tabled. The deficiency appropriation bill, including the amendment providing for the full payment of government workmen who have received wages for only eight hours' labor a day [p]assed. The bill extending the time for the completion of the St. Croix and Lake Superior Railroad was reported back and assigned to next Monday.

State News.

Hon. Rowse Babcock, a prominent and estimable citizen of the State, died, Wednesday morning, at his residence in Westerly.

The woolen mill of J. D. Nichols & Son, at Mohegan, Burrillville, was burned yesterday. Loss from $30,000 to $40,000. It is believed to be uninsured.

A case of small-pox is reported in Providence; a child less than one year of age; came from New York Monday night, and on arriving Tuesday morning the eruption was visible.

The Norwich Bulletin states that the Stonington and Providence road has placed Westinghaus' compressed air brake on one or more of its trains. It is controlled by the engineer, and entirely obviates the necessity of brakemen, checking the train so much quicker than the old method that in running a distance of fifty miles it is said that fifteen minutes are gained by its use.

Mr. Isaac Peckham returned from Providence, to his home in West Scituate on Friday evening, and found his neighbors and friends assembled at his house prepared to give him a surprise party. After extending to them a welcome, he proceeded to the barn to put up his horse, but had been absent only a few moments when the startling intelligence was announced to his guests that he had dropped dead of heart disease.

Buried Alive.

An Irishman took the contract to dig a well. When he had dug about twenty-five feet down, he came one morning and found it caved in, filled nearly to the top. Pat looked cautiously around and saw that no person was near, and then took off his hat and coat, hung them on a windlass, crawled into some bushes and awaited events. In a short time the citizens discovered that the well had caved in, and seeing Pat's hat and coat on the windlass they supposed that he was at the bottom of the excavation. Only a few hours of brisk digging cleared the loose earth from the well. Just as the citizens had reached the bottom, and were wondering where the body was, Pat came walking out of the bushes, and good naturedly thanked them for relieving him of a sorry job. Some of the tired diggers were disgusted, but the joke was too good to allow anything more than a hearty laugh, which soon followed.

(Written for the Daily [illegible])

A Nuisance.

Mr. Editor:

[illegible] On [illegible] and have [illegible] small credit to ourselves, for [illegible] with [illegible] commendation what has often thrown our neighbors into a violent fit of rage. For instance, our neighbor has many times railed at us in regard to that man-trap in front of the post-office. I very placidly quieted his ruffled feelings and told him that our honored and efficient Postmaster knew best about the matter; that it was for some good purpose that he was keeping that unseemly hole there in the sidewalk, (Probably that he might keep that front door closed during this cold weather) And that, in his own good time, the hole would be filled up or covered over with more boards which will help prevent policemen and unrulyboys from endangering their limbs by falling through.

All this, I say, I could bear with a calm and serene countenance, but when our neighbor came to talk about the inside of the office, there he had us at a disadvantage. I remembered too well the jostling I had lately received in that lobby, by about a hundred men, women, and children, all bent on getting their mail before a quarter to eight o'clock, for precisely at that time the curtain drops. Then my placid soul was roused and I am sorry to say that I let my neighbor see, that when driven to desperation, I had a temper. Now, Mr. Editor, what I wish to remark is that other peoples' tempers have been roused, besides mine. Our evening mail, which we are anxious to obtain, very rarely arrives at the office before half past seven, and at a quarter to eight, the half a door, which is kept open, is cleared. Consequently in order to make sure of our letters we are compelled to go, at least half an hour early and wait there in that small lobby till the mail is open. The result is a large crowd gathers in quarters much too small to accommodate them and a large police force is required to keep order, which it by no means succeeds in doing. This can all be avoided if our Postmaster will consent to keep that office open an hour and a quarter longer. Let him detail one of his clerks to remain there till the nine o'clock bell rings and we can go and get our mail without fear of being crushed by the eager crowd. If he thinks the pay now granted not sufficient to justify so much extra work we doubt not that our citizens would gladly pay the sum demanded for the additional hour's work. At any rate let our Postmaster try the change, and, our word for it, he will increase in popularity ten fold.

JUSTICE.

The Late Robert Walsh.

(Died, at Camden, March 1st, aged 63.)

We are called upon to chronicle the death of another of our summer visitors, whose loss will be keenly felt by those who knew him well. Like his honored father, Mr. Walsh is so intimately connected with the literary and diplomatic history of this country, for the past forty years, that we are confident many tributes to his excellent qualities will appear in the journals of the day.

Few men of his culture and varied information, or imbued with so much refined philosophy, are to be found, who could or would meet either youth or age with so much modest affability, in their daily walks of life as he did. A ripe scholar, he was not only ready to impart, but always willing to learn; while his polyglot mind enabled him to converse on equal terms with the natives of the principal countries abroad in their own language. And though ever ready to communicate what was interesting and amusing; so well drilled was he in his official capacity, as the representative of this country to some foreign court, during the last thirty years; that, in the intricate intercourse arising from his consular duties, abroad, he possessed the rare faculty of concealing what was not to be unfolded; while his polished manners and easy verbiage wrapt his secret missions in the garb of social wit, in which he rarely if ever was excelled. His mind was filled, if I may use the term, with the most delicately cooked, anecdotical croquettes, which had only to be warmed by enthusiasm, to be served up in an elegant manner, suitable to the most fastidious palate.

In many ways his humor reminded one of Charles Lamb; while to those who were permitted to dip into his inner life, there were not a few characteristics resembling, in a marked degree, the acute sensibility of McKenzie's "Man of Feeling." While, made up of tact, which seemed to him an adaptable second nature, he could with ease turn an excitable conversation by the happy use of some unequaled pun. If his adversary became too personal, with the rapidity of a flash of thought, using his tongue as a single stick, he disarmed contention and withered conceit by some well timed and, most opposite, scathing sarcasm.

Mr. Walsh's society was sought not only for his wide experience and education but because like Dickens he was gifted with a mental vision that had the power of being able, at any given time to shift the focus from the sublime to the ridiculous. He saw things not only in an intensified manner, but would hold up his objects to view, sometimes in the mellow light of reminiscence, while at others he would convulse his friends by such crooked talk and quaint conceptions that memory laughed over his irresistible similes; and yet with all this he was remarkably free from that mental squint—prejudice. When such a man departs, his place cannot be filled, for that which pleased amused, instructed and drew out our warmest emotions was an original. No alter primus could stand in the shadow of his genial name.

Modern Language.

The Chinese is the most difficult, the Italian the softest, the Spanish the most pompous, the French the most polite and passionate, and the English the most copious and energetic. It is said to contain about 20,000 Saxon words, with 3,000 of Latin or Norman origin, and about 1,500 of Greek derivation, together with the German, Welsh, Spanish, Danish, Arabic, Hebrew, &c. In English, the scientific words are mostly from the Greek; terms of art from the French, Latin, and Italian; and the names of places and rivers and most of the particles from the Saxon.

—The brig "Redwood", Capt. Benjamin Melville, from Cuba, arrived here yesterday. On account of the ice she was obliged to anchor off Fort Walcott.

—Two persons, Philip Weaver, and James Heath, better known as Pony, took an involuntary bath through the ice yesterday. They were pulled out without serious damage.

—One of Alex. P. Sisson's horses fell down on Thames Street yesterday in a fit, The horse was detached from the carriage and after a short time recovered. The carriage came very near going through J. W. Sherman & Co's meat market when the horse fell.

THE BOATS.—The steamer Newport arrived from New York this morning at very nearly her usual hour. There was a large quantity of ice in the Sound, but with the aid of tug boats she succeeded in accomplishing her journey without serious difficulty. The Old Colony left for New York last evening. This morning the Newport was engaged in making a path through the harbor for use this evening.

ALMOST A FIRE.—Officer Cornell discovered what would soon have been a conflagration, in the house of James Stevens on Mount Vernon street, about one o'clock yesterday morning. It seems that Mr. Stevens had left a lamp burning in the hall the night before, and the surroundings had caught fire and when the officer happened along it was burning quite briskly. Cornell aroused the owner and the flames were extinguished without much damage being done and with no alarm.

ASHORE.—The schooner reported ashore on the Breakwater, Wednesday, was the West Wind, of Lewiston, Del., S. H. Townsend, master, from Philadelphia, bound to to Fall River, with coal. She came to anchor off the Breakwater, but, owing to the high wind, dragged her anchor. The captain, mate and one man only were fit for duty, all the rest being frost bitten. Owing to the ice, much of her rigging had to be cut away. At noon today she was still ashore, but the City of Newport had gone to her assistance.

A SPIRITED WOMAN.—A scene of no little interest occurred in Patrick Tiernan's rum shop, yesterday. It seems that a certain man, who had been in the habit of making a beast of himself by imbibing in the poisonous stuff known as rum, had made his headquarters at this shop more often than was agreeable to his hard working wife.—Yesterday he started for his morning dram, and the wife followed, found him in the saloon and at once started him home. The barkeeper then interfered. This aroused the anger of the abused woman, who instantly seized the offender, and pinned him to the wall. With so much vigor did she handle him that he was obliged to call for help. This brought in the brother who was likewise seized and vanquished by the irate woman. The mother then came to the rescue but met with similar treatment. In short, the woman was emphatically master of the situation, and the cowardly liquor-dealers stood subdued, before her righteous indignation.

Serious Accident to Harriet Beecher Stowe.

A Jackson (Fla.) despatch of the 20th ult says:

Mrs. Harriet Beecher Stowe has met with a very serious accident at her residence at Mandarin. It seems that she and Dr. Stowe were in their bed chamber, when she in attempting to arrange the drapery of her window, stood upon a high table. Having completed her arrangement she stepped backward, and catching her feet in her hoopskirt fell with violence to the floor, striking the base of her brain against the sharp edge of a bedstead, while her back fell squarely upon a sitz bath-tub which was standing near the table. Mrs. Henry Ward Beecher, Dr. Stowe and a daughter of the unfortunate lady ran hastily to her aid. She was picked up insensible and laid upon her bed. Everything was done which could be suggested, and the following morning Mrs. Stowe was without much pain in her head, but suffered much in the back.

Narragansett Pier.

The Narragansett Pier Railroad seems to have ended in talk and the would be leaders of improvements are now striking out with a new project. A correspondent writes:

The capitalists have now determined to put on a large, commodious and substantial steamboat to run the year round from Providence to the Pier, touching at Newport for passengers from New York in the summer, and for Boston freight, which consists chiefly of cotton, wool and other materials for the factories in the several manufacturing villages in this town which is to be transported over the Old Colony railroad to Newport. So popular is this steamboat plan that all our merchants and business men have unanimously agreed to help make the boat a paying institution by having all their freight as well as passengers, removed from Providence by the boat, instead of the Stonington road, which in time will be quite an item. From the steamboat landing at the Pier, a horse railroad has already been decided upon by the Narragansett Improvement Company to Narragansett Heights, and now it is proposed to extend this horse railroad to Wakefield, Peace Dale and the other manufacturing villages, in order to make direct corrections for both freight and passengers from the boat. In the meantime the wharf at the South Pier will receive another addition of seventy feet, which with other anticipated improvements, will render it a first class road in every respect. Thus the railroad controversy ends in a decided success, perfectly satisfactory to our citizens, and without doubt will be greatly appreciated by the numerous guests that flock to the popular world-renowned and fashionable summer resorts known as Narragansett Pier and Narragansett Heights.

Mrs. Churchill's Lecture.

The lady who is to speak on Woman Suffrage at the Opera House this evening is well known to the temperance people of this city, having spoken on that subject in the same hall before. For the benefit of others, I will say that she is a lady of high character and excellent abilities, who has been speaking throughout the State, with general approbation under the auspices of the R. I. Woman Suffrage Association. She is a native and resident of this State, understands its laws, and makes clear, pleasing and convincing statements. Those who attend her lecture may be sure of hearing much that will interest them and nothing that will justly displease.

T. W. H.

[We add to the above one or two scraps from other papers in regard to Mrs. Churchill's lectures]

Mrs. Churchill is one of the most eloquent speakers on the Womans platform. We regret that we have not space to publish her remarks in detail. [Philadelphia Post.

Mrs. Churchill is a pleasant speaker—logical in the order of her thoughts, perfectly self-possessed, and using the choicest phraseology; and she made a capital plea in favor of granting to women the right of suffrage. [Mystic Press, Chelsea, Mass.

The points of her subject were well chosen and ably sustained. Her pleasant voice at times reminds one of Lucy Stone. [Waltham (Mass.) Sentinel.

Mrs. Churchill, of Providence, made the principal address of the afternoon, commanding very close attention, and commending itself to the good opinion of the audience, alike by the purity of her language, the force of her logic, and the lively sallies of her wit. [Lowell Citizen.

Some Remarks on Etiquette.

If the lady on whom you call is not at home, you must leave your card. Where there are sisters and daughters, it is sometimes considered enough to turn down the corner of a card, to intimate that they are included, but this is rather going out of fashion. A separate card is now usually left for the young ladies, and one for the master of the house. But this is quite enough; do not leave a pack of cards at a door, as three are sufficient to meet any case.

Always leave a card within a week after you have accepted an invitation to dine with a friend.

A card left at a farewell visit has P. P. C. (*pour prendre comge—i. e.*, to take leave) written in the corner.

When a note of invitation to dinner is written, it should be in the third person, and in the names of both the lady and gentleman of the house:

"Mr. and Mrs——request the pleasure of Mr. and Mrs.———'s company at dinner on Monday, Dec.—, at 8 o'clock."

The answer accepting should be—

"Mr. and Mrs.———have much pleasure in accepting Mrs.———'s invitation for Dec—."

Or, refusing the invitation:

"Mr. and Mrs. Moore regret that a previous engagement will prevent them from having the pleasure of accepting Mr. and Mrs.———'s kind invitation for Dec.—"

On no account neglect to give immediate attention to invitations; any want of courtesy in this respect is unpardonable.

If you accept an invitation to dinner, nothing but illness or the death of friends ought to excuse you from keeping your engagement, as it is very disagreeable for the person who gives the dinner party to have a vacant seat at the table, and, perhaps, an odd number to send into dinner. Send an excuse (if one must be made) in time to allow your place to be supplied.

In writing to a perfect stranger on business of any kind, you should begin your letter with "Sir", or "Madam," and sign yourself "Your obedient servant."

It is usual to write to persons on business in the third person, as:

"Mrs.——— will thank Mr. Jones to send her five yards of lace, etc., at his earliest convenience."

Letters of introduction are often of great value, but you should exercise great caution in giving them. Never do so unless both the person to whom they are addressed and the person in whose favor they are written are your friends, and not mere acquaintances. Even then you ought to consider whether the introduction is likely to be agreeable to both.

Having received a letter of introduction, give it immediate attention. Either write to the person introduced, or call on him, or leave a card, the next day, and be on his part, should return your attention within a week.

Never break an appointment, but be punctual to the moment in keeping it.

If during a morning call or at a dinner or evening party, you should be so unfortunate as to overturn or break anything, do not be profuse in your apologies but express your regret in manner rather than in words.

Do not affect fine language; speak in a simple, straightforward manner, without pretence or affection.

An Irate Englishman.

At a minstrel performance at Milwaukee, Saturday night, the end man made some facetious allusions to England and the Alabama claims. This was resented by a son of Great Britain, who arose from his seat, pointed a pistol at the sable songsters, and demanded retraction. Instead of taking back their words, they took themselves back of the scenery in less time and less order and decorum than that with which they had so lately appeared and made their opening bow. Hold Hengland was led out by the ear, and the performers returned to their vocation.

THE SONG MESSENGER is for the musical people. The fact that it is published by Root & Cady of Chicago is evidence that it is a good thing.

One of the vessels has been recovered, but the other two are yet drift at the present time of writing.

RAILROAD ACCIDENT NEAR SPRINGFIELD.

TWELVE PERSONS INJURED.

SPRINGFIELD, Mass., March 8—4 A. M

The owl passenger train from this city for New York was thrown from the track about two miles below the Springfield depot. The train was running round a curve at the rate of only about fifteen miles an hour, when it encountered a broken rail.

The engine and Adams Express car passed over the break, but the four cars next following—the baggage, mail, smoking and one ordinary passenger car—went down the embankment. Behind them were three sleeping cars, all of which left the track, but did not run off the embankment, and no one in these cars was injured.

Altogether there were not more than ten or twelve persons injured, and it is believed none fatally.

The Portland Press makes a good point, thus: "There can be no doubt but what the Democracy of Maine are committed to the passive policy. Not only have the leading party organs advocated it, but the municipal elections in Portland, Lewiston, Saco and Auburn afford the most indubitable evidence that the party is entirely passive, perhaps hopelessly so."

Commissioner Walker of the census bureau has sent to the House an application for an appropriation of $20,000 with which to defray the expense of completing the ninth census. The amount is additional to $480,000 appropriated early in the session, and is accounted for by close estimate in the previous allowance.

Periodic Disorders.

The paroxysmal maladies which are characterized by heat and cold, prevail extensively at this season, and it is a curious fact that in many parts of the country where they are prevalent, other diseases, that bear no general resemblance to fever and ague, or remittent fever, assume a periodic type. Thus, in many sections infested with chills and fever, rheumatism, neuralgia, hysteria, diarrhœa, &c., sometimes become intermittent, thereby indicating that they have been engendered by the same poisonous exhalations which produce the first named disease.

In all these *masked cases of ague*—for such they are—as well as in the regular intermittents, the most safe and reliable remedy that can be administered is Hostetters Stomach Bitters. Neither quinine nor arsenic are needed. Both are in the highest degree dangerous, and are sure to leave sad traces of their poisonous action in the system, whether they arrest the paroxysms or not. In many instances all the so-called specifics of the "regular materia medica utterly fail to "break up" intermittent and remittent disorders. But the great Vegetable Tonic never fails. The spasm of the minute blood-vessels which causes the chill is the result of nervous weakness, produced by the debilitating operation of an unwholesome atmosphere, and the tone and vigor given to the nervous system by the Bitters, enable it to throw off the disease. The wiser policy, however, is to anticipate attacks of this nature, by arousing all the latent energies of the body at the commencement of the moist and chilly season, with this incomparable antidote. By pursuing this course, intermittents, remittents, rheumatism, colic, biliousness, dyspepsia and pulmonary affections may always be prevented.

Beauty's Best Auxiliary.—Ask the belle of the season what appointment of her toilet-table holds the highest place in her esteem, and she will reply, without a moment's reflection, HAGAN'S MAGNOLIA BALM. Nothing, she is thoroughly aware, contributes so powerfully to enhance her charms and render her irresistible as that most delightful and healthy auxiliary of Beauty. By using it ladies are enabled, long after they have passed the meridian of life, to preserve the youthful bloom and purity of their complexions, and where Nature has denied that superlative attraction, the Balm fully compensates for her deficiencies. mar6-n&3

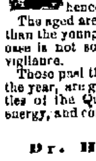

A COUGH, COLD, OR SORE THROAT requires immediate attention, as neglect oftentimes results in some incurable lung disease. "Miller's Vegetable Expectorant" is a simple remedy, and will almost invariably give immediate relief. Sold by all dealers in medicine at 35 cts. per bottle.

Dead men tell no tales! if they did, anathemas against the deploring lancet, the drastic purge, and the terrible salivants of the materia medica, would arise from every graveyard. The motto of modern medical science is "*Preserve and Regulate, not destroy*," and no remedy of our day is so entirely in harmony with this philanthropic logic as DR. WALKER'S VEGETABLE VINEGAR BITTERS. In this powerful yet harmless restorative, dyspepsia, bilious complaints, and all disease of the stomach, liver, bowels and nerves, encounter an irresistible antidote. mar6-1w

There are probably a hundred or more persons in this and neighboring towns, who daily suffer from the distressing effects of kidney troubles, who do not know that *Johnson's Anodyne Liniment* is almost a certain cure. In severe cases, great relief may be obtained, if not a perfect cure.

The Celebrated Quaker Bitters—A Great Spring Medicine.

Why do many people in the Spring of the year feel weary, weak, languor of body and mind, which if not removed, often results in dangerous maladies, a morbid sensation, &c.

It is because nature at this season of the year is undergoing a great change. She commences to germinate, to generate, to propagate, to build, to renovate; this great law is palpable in all the animal creation, hence the necessity of a counter action.

The aged are more susceptible of nature's changes than the young, because the power of repelling disease is not so great, consequently requiring more vigilance.

Those past the meridian of life, at all seasons of the year, are greatly benefitted by taking a few bottles of the Quaker Bitters, it produces new life, energy, and consequently happiness.

SOPHIE MAY'S

"grown up" story

THE DOCTOR'S DAUGHTER

One Handsome Illustrated volume, cloth, $1 20, just issued, which has already had a very large sale and which is winning golden opinions from the critics of the press.

Do not fail to read it!

All the tenderness, earnestness, and lofty which characterize her writings for young folks, and which e uses them to be so eagerly sought by parents a children, abound in this story for older readers.

"Bright as a sunbeam, natural as life itself, unpretending as real goodness, and sanitary as the personal effect of pure spring water."—*Host. Transcript.*

"The book is made up of wholesome, common-place experiences, so charmingly told that from first to last the interest never lessens."—*Hearth and Home.*

"All the young girls of our acquaintance pronounce it splendid."—*Portland Transcript.*

"The Doctor's Daughter" should be classed with such books as Mrs. Whitney's "Real Folks" and Miss Alcott's "Little Women," and high praise as it may seem we feel inclined to say it is equal to either of the stories mentioned.—*Crocker's Literary World.*

NEWPORT DAILY NEWS

Mirth.

D-e-b-t are the initial letters of "Dun everybody twice." C-r-e-d-i-t are the initial letters of "Call regularly every day—I'll trust."

A man with a long nose had the end of it frostbitten. A friend remarked, "You should have rubbed it, and prevented the calamity." He replied that he did, as far as he could reach.

A fat man riding upon a lean horse was asked how it came to pass that himself was fat, and his horse so lean. He answered, "Because I feed myself, but I leave the feeding of my horse to another."

A good story is told of a popular railroad conductor recently chosen deacon of a church in Middlesex County. A few Sundays after his new appointment it became his duty to assist in taking up a collection. He surprised the congregation by startin out with the characteristic ejaculation, g "Tickets, gentlemen!" The contribution that day was unusually large.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF ABUSE AND SOLITARY HABITS, Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS Incident to Married and Single Ladies;
SECRET AND DELICATE DISORDERS; Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S PRIVATE MEDICAL OFFICE, **No. 21 Endicott Street, Boston, Mass.,** is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is **No. 21,** having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he **is the only regular graduate physician advertising in Boston,** TWENTY YEARS engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities,

DR. L. DIX proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE! be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS, who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS, through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who needs Medical or Surgical adviser, to call at his Room No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

A GREAT MEDICAL DISCOVERY

MILLIONS Bear testimony to their Wonderful Curative Effects.

DR. WALKER'S CALIFORNIA

J. WALKER, Proprietor. R. H. McDONALD & Co., Druggists & Gen. Agents, San Francisco, Cal., and 34 Commerce street, N. Y.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor **Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER** and **A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

"PATENT PAPERED WOOD HANGINGS,"

Parties Decorating their Walls and Ceilings should carefully examine the merits of the WOOD HANGINGS and not accept the unfavorable reports of interested parties. Instead of throwing away your white doors or having them grained or putting in solid hard wood, you can have them covered with Wood Hangings, putting in solid moul'dings, saving a great expense.

Office of JAMES Y. SMITH & NICHOLS, No. 55 Westminster Street. Providence, R. I., April 20, 1870.

CHARLES W. SPURR, Esq., 43 Summer St., Boston.

DEAR SIR:—Our Union Bank decorated their banking rooms with your Wood Hangings two years ago, which has been much admired. The work stands well, no showing of its giving out in any way. Hope you are successful in introducing the same.

Very truly,

JAMES Y. SMITH, President.

ERIE RAILWAY, JOHN S. DUNLAP, N. England Agent, 124 Washington Street, Boston, June 24, 1870.

CHARLES W. SPURR, Esq.,

DEAR SIR:—I have your favor of the 1st, referring to your Wood Hangings. About a year since I had it used in the dining room and halls of my house, and to date I am perfectly satisfied with it in every particular.

Very truly,

JOHN S. DUNLAP.

SELWYN'S THEATRE, MANAGER'S OFFICE, BOSTON, May 8th, 1870.

CHAS. W. SPURR,

SIR:—I wish to say that your Wood Hangings have been on the walls of the Vestibule of this Theatre since August, 1868, and have proved entirely satisfactory. As the walls were plastered, and the Vestibule very much exposed to the varied changes of the weather, there were serious doubts of the permanency of this style of decoration, but those doubts have been entirely removed. And the truth of this is manifest to the many who come to see and judge for themselves, and who admire its beauty and novelty exceedingly.

I remain yours truly,

JOHN H. SELWYN.

TRANSCRIPT OFFICE, Boston, May 10, 1870.

CHAS. W. SPURR Esq.,

DEAR SIR:—The Wood Hangings you put upon my house, No. 14 Montgomery Street, has stood the test of two years' use, to the entire satisfaction of the family. It is as firm on the wall as the day you left it. The heat or moisture has not caused the wood to peel in a single spot, and I see no reason why it will not remain so for years. I can cheerfully recommend its use to all, in preference to paper in a dining room.

Respectfully and truly yours,

H. W. DUTTON.

These Wood Hangings are manufactured and for sale at **No. 522 Harrison Avenue, Boston.** Persons desiring to see these Hangings already, or will be referred to parties in Newport by inquiring at the DAILY NEWS OFFICE.
